

KNOW the FACTS about HPV and Cervical Cancer

MYTH ◀

I would know if I had human papillomavirus (HPV), the virus that causes cervical cancer.

FACT ◀

HPV often has no signs or symptoms, so men and women can have it and not know it. Since most people don't realize they are infected with HPV, they can pass it on to their partners without knowing it.

Every day, about five Latinas/Hispanic women in the United States are diagnosed with cervical cancer.
